Unpredicted Truview EVO2 endoscopic laryngoscope: Improves laryngeal view by 1 to 2 grades.

Insert properly with 'button' up. Oxygen flow prevents fogging.

Use with OptiShape™ stylet. Tighten screw at correct height.

Enter centrally, mid-mouth over tongue.
Minimal entry of blade for view

Look through eyepiece from a comfortable distance

Enter ET tube from side
Point ETT towards light at tip of blade

See tip of ETT, then gently push forward and inside.
